CORE SKILLS

Frontend Architecture

Vue.js • Nuxt • React • Next.js • SSR • Scalable UI Systems • Semantic HTML

Backend & API

Laravel • Node.js (Express) • RESTful APIs • Authentication (JWT / Sanctum) • MVC Architecture

State & Data Management

Vuex • Pinia • Redux Toolkit • REST APIs • Async Data Handling

Performance Optimization

Lazy Loading • Code Splitting • Asset Optimization • Core Web Vitals (CLS / LCP) • Lighthouse Tuning

Engineering Workflow

Git • Chrome DevTools • Figma

WORK EXPERIENCE

Hiko Solution

Senior Frontend Developer | Sep 2022 – Present

- Played a key role in frontend architecture and development of production-scale web platforms using **Vue.js and Nuxt** (SSR).
- Improved Lighthouse **performance** score from ~50 to 90+, significantly enhancing page load speed and user interaction.
- Solved complex responsive layout and cross-browser issues using **advanced, maintainable CSS architecture**.
- Integrated and collaborated on **RESTful APIs**, working closely with backend teams and contributing to backend logic using **Laravel** (authentication, data handling, API structure).
- Integrated REST APIs and collaborated directly with backend and product teams to resolve performance and UX bottlenecks.
- Conducted code reviews, enforced coding standards, and mentored junior developers to improve code quality and development consistency.
- Acted as a technical point of contact for frontend decisions and best practices.

Kamora Digital Product Studio

Frontend Developer | Jul 2020 – Aug 2022

- Developed scalable admin dashboards and complex UI systems using React.js and Redux.
- Designed scalable styling architecture for complex layouts and reusable UI components.
- Used **CSS Modules** and **styled-components** in **React/Next.js** projects to ensure scoped, maintainable, and conflict-free styles.
- Developed and maintained web applications using **Laravel** (MVC architecture, REST APIs).
- Worked closely with backend developers to **integrate APIs** and ensure smooth data flow.
- Participated in code reviews and provided technical guidance to team members to ensure best practices.

IF Vietnam Co.

Frontend Developer | Sep 2017 – Jun 2020

- Converted UI/UX designs into responsive websites and landing pages using **HTML5, CSS3, jQuery, PHP, Laravel, WordPress**.
- Implemented **semantic HTML** structure to **improve accessibility**, search engine indexing, and long-term maintainability.
- Built **cross-browser** compatible layouts and handled responsive edge cases across desktop and mobile devices.
- Delivered **pixel-perfect UI** implementations for multiple client projects.

EDUCATION

Bachelor of Information Technology

Danang University of Education | 2011 – 2016

ADDITIONAL

- Strong collaboration and communication skills
- High attention to detail and UI accuracy
- Strong sense of ownership and accountability for assigned tasks and deliverables
- Adaptable to new technologies and fast-paced environments
